#WOLVERINE

# ONE TOOL TO CUT AND SPREAD DIRT

Eliminating the need to scrape, drop the dirt and then integrate it into the soil. The Wolverine Ditcher provides a similar finish to a scraper in significantly shorter time with reduced field compaction and pulling resistance.

## NARROW STANCE KIT AVAILABLE

The **Narrow Stance Kit** has the wheels set directly behind the Wolverine ditcher, allowing for steeper angled ditches and allowing the ditcher to stay within the parameters of the waterways.

## FLAT CUTTING SURFACE

### WOLVERINE DITCH

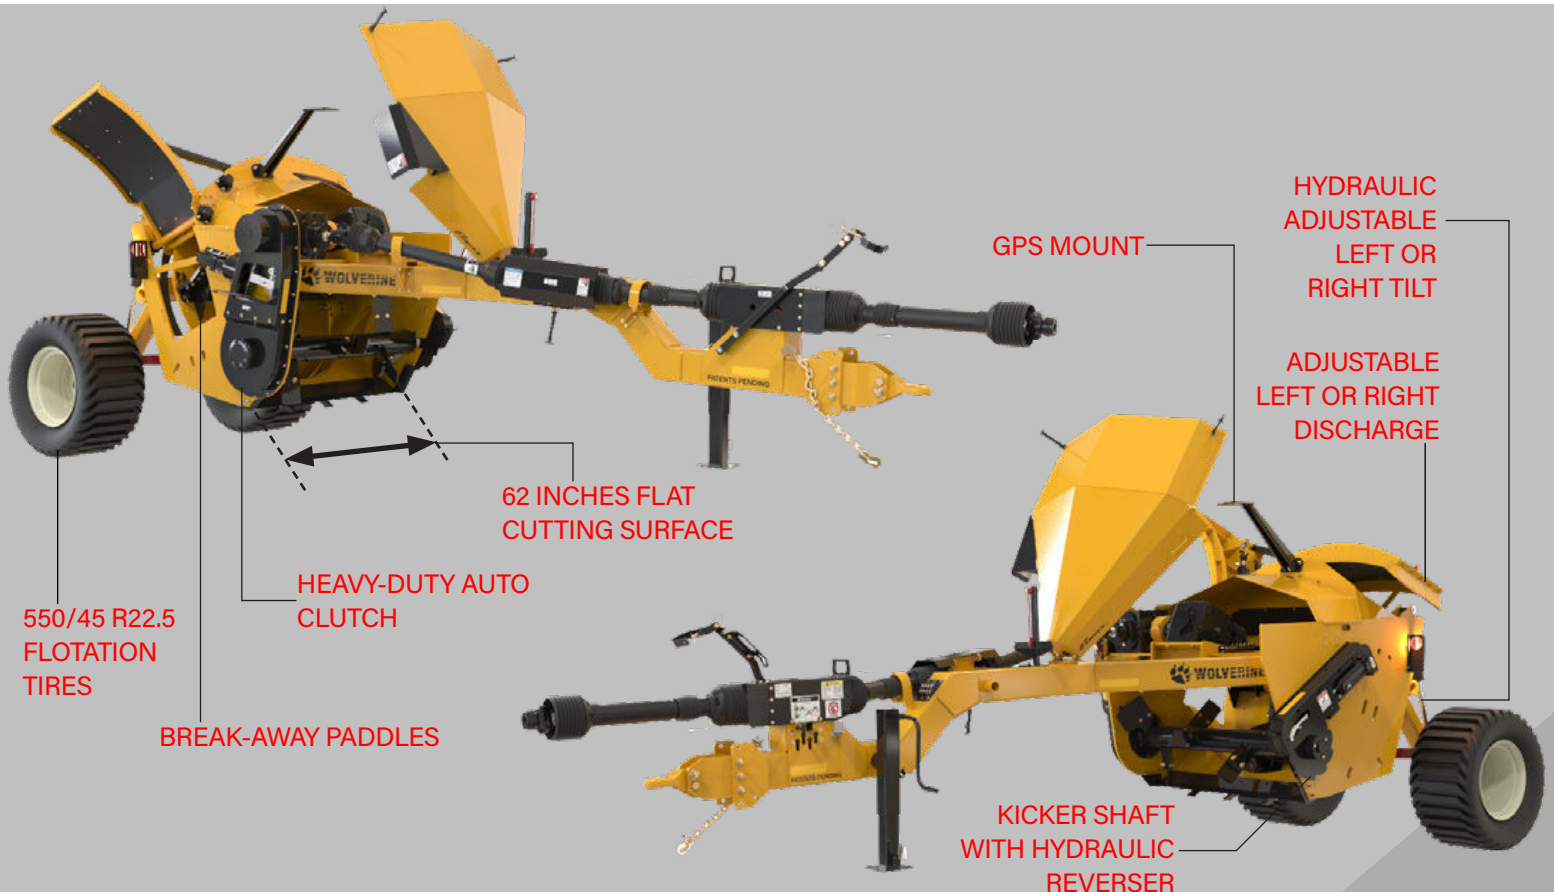

**1000 ft Ditch**  
**5000 ft<sup>3</sup>**
