HARVEST WITH MORE VOLUME AND EFFICIENCY

DUAL ELECTRIC TARP (TABLET OPERATION WITH PRO)

MOVE WITH EASE EVEN WITH 370 BU OF GRAIN IN THE FRONT TANK

DROP FRAME FOR ON-FIELD STABILITY AND ELIMINATES STRESS ON AXLE

SIDE AND END WINDOWS FOR QUICK VISIBILITY OF GRAIN LEVELS

GROUND ENTRY DOORS ON FRONT AND REAR COMPARTMENTS FOR EASY CLEANOUT

DUAL TANK DESIGN

- Hold crops with varying properties, such as moisture & protein, and blend them together.
- The dual tank design is a game-changer for grain farmers. **Upgrade to PRO for individual gate control and blending.**
- Independent front and rear cleanout gates simplify maintenance and ensure minimal cross-contamination.

KEEP YOUR COMBINES MOVING

- The impressive 8250 bushel capacity keeps harvesters operating uninterrupted.
- Efficient power transmission with the 22" discharge auger and Powermaster Direct Drive Gearbox.
- 28 degrees of vertical pivot motion and 4-way spout control.

SIMPLIFIED TECHNOLOGY

HIVE PRO

- Double tap to fold.
- Automatic return-to-home auger functions.
- Tablet and Joystick-controlled auger.
- Gate function control.
- Simplifies equipment use for all.

TESTIMONIAL

The HIVE greatly improved operational efficiencies by reducing the need for additional staff and equipment. Combine idle time from one of the fields was minimized from 15% in 2023 (approximately 4 hours) to 5% in 2024 (less than 1 hour), resulting in better overall time management and fuel efficiency.
