

WOLVERINE

ONE TOOL FOR IT ALL

Elmer's
MANUFACTURING

#WOLVERINE

ELMERSMFG.COM

ONE TOOL TO CUT AND SPREAD DIRT

ELIMINATE THE NEED TO SCRAPE, DROP THE DIRT AND THEN INTEGRATE IT INTO THE SOIL.

The Wolverine Ditcher provides a similar finish to a scraper, in significantly shorter time, with reduced field compaction and pulling resistance.

NARROW STANCE KIT AVAILABLE

The Narrow Stance Kit has the wheels set directly behind the Wolverine ditcher, allowing for steeper angled ditches and allowing the ditcher to stay within the parameters of the waterways.

FLAT CUTTING SURFACE

WOLVERINE DITCH

1000 ft Ditch
5000 ft³

15' wide x 5' flat x 6 inch deep = 5 ft³

ROTARY DITCH

1000 ft Ditch
2350 ft³

36 inch wide x 12 inch deep = 2.35 ft³

| SPECIFICATIONS | |
|----------------------------|--------------------------------|
| Weight | 9,500 lbs (4,318 kg) |
| Size | 22' L x 8' 6" W x 9' 7" H |
| Ideal Speed | <1.2 MPH with PTO at 1,000 RPM |
| Ideal Horsepower | 240 HP with CVT/IVT |
| Cut depths up to 10 inches | |
| Throws dirt over 150 feet | |

HYDRAULIC INPUTS REQUIRED

1. Left or right output & chute angle
2. Vertical frame lift
3. Left or Right frame tilt
4. Hydraulic kicker shaft reverser
